

World Manufacturing Production

February 2024

Global manufacturing

Global index of manufacturing production

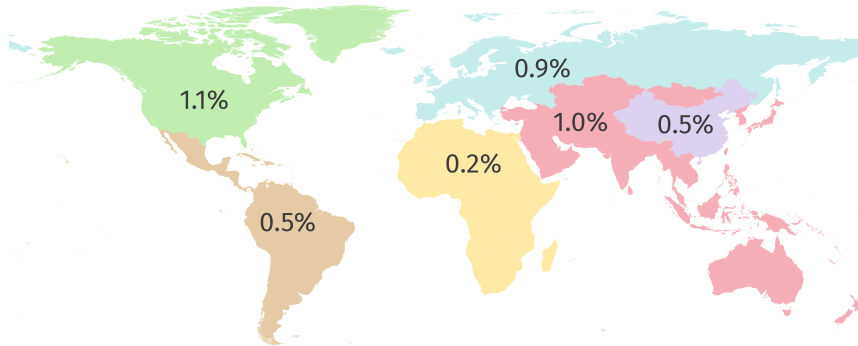

0.8%
month-over-month growth rate of global production, following a volatile path in recent months.

Regional performance

Month-over-month growth rate of manufacturing production by region

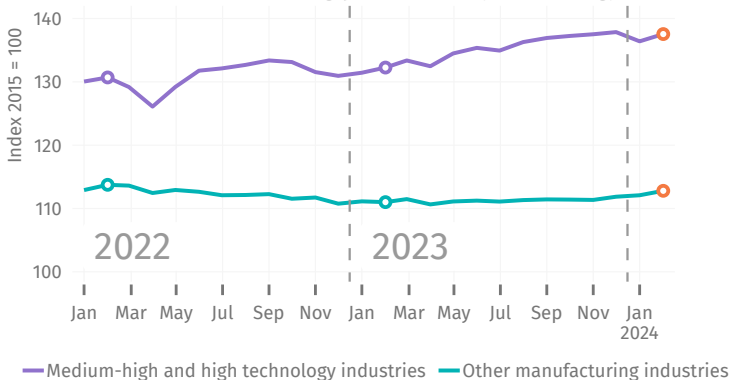

A recovery, led by Germany, the Republic of Korea and the United States, was observed in all regions of the world, after several months of uncertain growth.

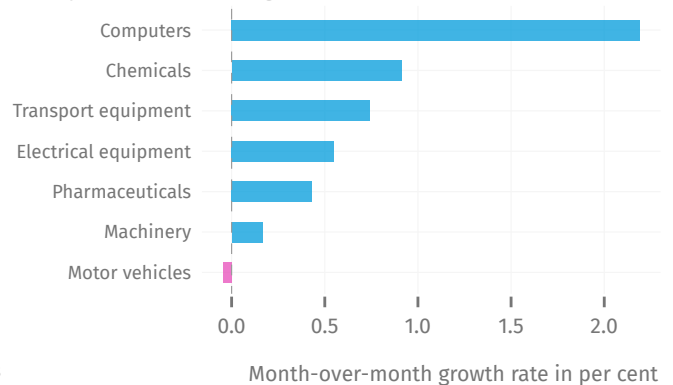

Sectoral trends

Global index of manufacturing production by technology level

Global performance of higher-tech industries

Higher- and lower-tech industries improved by a similar magnitude compared to the previous month:
Medium-high and high tech: 0.8%
 Other manufacturing industries: 0.6%

Almost all higher-tech industries grew significantly in month-over-month comparison, spearheaded by **computers**. Conversely, **motor vehicles** registered a slight decline in production.

Note: This report is based on seasonally-adjusted series of official indices of industrial production (IIPs). Data used to create the infographic can be downloaded in [this link](#) while the full [database of monthly IIPs](#) can be accessed through the [UNIDO Data Portal](#). Methodological details can be found in [this document](#). For additional information, contact [UNIDO Statistics](#).
